## JAN 29 1925 Puget Sound Peonies

IVAN W., GOODNER R. F. D. 19, Box 214 SEATTLE, WASHINGTON

## Strong, Well-Balanced, Two-Eve Roots, Offered in Response to an Insistent Demand for this Size Plant

Nowhere in the world can better peonies be grown than in the Puget Sound region of the North Pacific Coast. Here soil and climatic conditions conspire to develop fine, sturdy roots, which, when properly planted, here or elsewhere, produce unbeatable flowers.

## Prices and Quality

Prices in the following list will be found to be lower than usually quoted elsewhere, but on examining my plants I find that this season's growth has been remarkably strong and that I can afford to reduce prices somewhat, and not sacrifice size or quality of root. The people of Seattle and neighboring cities who saw my exhibit of more than one hundred and fifty or more than one hundred and fifty varieties last June, can testify as to the quality and profusion of bloom produced by these plants, and I want to assure peony lovers of the East and Middle West that none better are grown anywhere. Where an order amounts to \$5 or more, it will, even at these low prices, be forwarded by express or insured parcel-post, charges prepaid. If large divisions are desired, I can furnish strong three to five-eye roots at the prices shown in the type-written list sent. A strong two-eye division, such as I send out if planted before the ground gets division, such as I send out, it planted before the ground good, will usually bloom the next spring, and in two or three years will have caught up with the larger division. If you years will have caught up with the larger division. If you division, such as I send out, if planted before the ground gets

desire any variety not listed here, please write me. I can probably furnish it, as I am growing many others, but stock on hand is not sufficient to justify listing.

It is my ambition to earn and maintain a reputation for furnishing peony roots equal to the very best quality grown in the United States, and I bespeak your encouragement in the form of a trial order. Our every effort will be made to please

For ratings, year of introduction, name of originator and color descriptions, consult the type-written list sent you. Below you will find name of variety, season of bloom—early, mid-season or late, in abbreviated form—and price for strong twoeye divisions.

Reference as to financial responsibility: University National Bank, Seattle, Wash.

Address orders and communications to
